

**Nu Film 17** is a superior sticking extending agent, specially designed to enhance the useful life of the insecticides, herbicides, fungicides & foliar fertilisers.

## Benefits

- It acts as a sunscreen, preventing degradation of the pesticide residue by ultraviolet light.
- Protects the pesticide from heat decomposition by reflecting the solar radiation.
- Better spray deposition, greatly reduces run off and prevents re-wetting.
- Helps pesticide sprays to penetrate and spread out uniformly on hairy or waxy leaves to get into crevices.
- Protects loss due to rain, irrigation, dew, and leaf abrasion.
- Dries rapidly into a waterproof film. It protects systematically translocated chemicals until they can penetrate and enter the plant tissue.
- Being a completely natural and non-toxic product itself, extends the life biological control organisms such as BT (*Bacillus Thuringiensis*) and viral agents.

# NU Film 17<sup>®</sup>

**Completely Natural Product derived from Pine Resin**  
**NON - IONIC adjuvant**

**Extender - Spreader - Sticker - Rainfast**

NU Film 17 Improves the control of pests such as Rhinoceros Beetle, Nettle Caterpillar and Bagworm when used with recommended insecticide.
