

Mytron (Adjuvant)

Spreader - **Penetrant** - Rainfast

General Weed Control

Mytron enhances weed control when used with glyphosate/glyphosate mixtures

- * **Mytron is a Unique Non-ionic Surfactant with strong penetrant properties.**
- * **Mytron will improve the performance of agrochemicals by enhancing the penetration of spray solution into the leaves.**
- * **Mytron improves rainfastness of glyphosate/ glyphosate mixtures thus minimising washouts.**

Usage Recommendation :

MYTRON (Rate)

Spray Vol/Noz	> 100 L/H	CDA or < 100 L/H
Herbicide		
Glyphosate / Glyphosate Mixture	5 ml (in 10L water)	10 ml (in 10L water)
